

REMARKS

Claims 39, 41-42, 44-51 are pending. The rest of the claims have been canceled.

In the Office Action of June 26, 2009, the Examiner objected to claims 43-45 for being dependent on a rejected claim, and otherwise indicated that the claims would be allowable. In order to expedite prosecution, the feature of claim 43 reciting that the molecular sieve is at least one of VS-n, VAPO-n, or VSAPO has been incorporated into claim 39. All the pending claims depend on claim 39.

The examiner also objected to claim 78 as being a duplicate claim. This claim has been cancelled. All withdrawn claims have also been cancelled.

It is believed that the claims are in condition for allowance. A notice of allowance is respectfully requested.

Respectfully submitted,

Dated: September 28, 2009
